Clamp	Equipped	
Auto Media Taking-up System	Selectable	
Printing Interface	USB2.0	
RIP Software	Maintop	
Input Power	AC220V,50Hz/60Hz	

细节展示 DETAILS SHOW

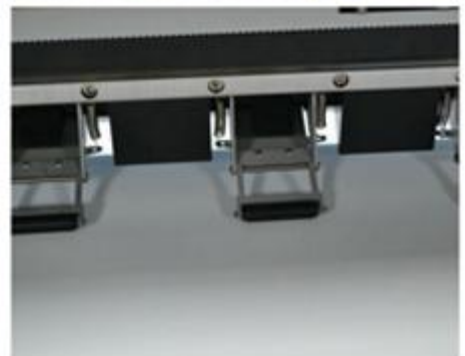

Why Simple?
Simplified Structure:
Easy to Operate:
Less Maintenance:

Why more precise?
New type of needle bearing limited the driving roller radial tolerance within 0.05mm Printhead guide and media roller is limited to 0.1mm

Why fast and stable?
Comes from MOOTOH New generation of Main board! Up to 27.42sqm/h

Available for commercial use!
If you are setting up your own business or even you are already running a printing house, this new designed simplified structure printer is just the right choice for your new business or expanding your existing business at a lower rate of costs. We brought down the manufacturing cost just by simplifying the structure and modifying the mechanism system, and the printing head is more precise, and durable.

Affordable for home use!
Sometimes you might have to print documents that are larger than a standard printer can handle, or, you are a fan of photographing and would like to enjoy your work arts at your house lying in the lounge , in which case you will need a wide-format Inkjet printer.
